"BE CAREFUL"

How you handle your plants when being moved. Great care should be exercised in selecting the right place to plant, and in the preparation of the soil. Be sure the spot is not soggy, and is either open or semi-shaded—complete shade is not advised. Dig hole twice as wide as ball to be accompanied, and about 4 inches deeper. This will allow for mixing of good top soil with well rotted dairy fertilizer, and peat moss. Pack thoroughly and place ball directly in the center then cover over with the same mixture, packing as you go. Make sure that top of ball is slightly higher than ground level to insure proper drainage. **DON'T PLANT TOO DEEP.** Water freely when first planted.

Ferns, Ivys, Cactus, Rubber Plants, etc.

Flower Stands and Wall Brackets

Unique and distinctive flower & house plant pots, stands, holders, trays, etc.

SOMETHING NEW ! !

As a flower lover, you know the value of proper soil conditioning. You know that more can be done for a plant before it is planted, by properly preparing the soil, than afterward. To help you do just that we are now offering our own peat moss and peat humus to the general public. This peat moss and peat humus has been thoroughly tried and tested and its chemical analysis proves it to be a superior product. (Ph 4.8). To quote Harry Daunoy, garden consultant, soil tests, 26 Farnham place, Metairie, New Orleans, La., who tested this peat moss: "This material compares very favorably with imported peat and the above test shows it to be somewhat more fertile. It may be used for mulching Azaleas, Camellias or other acid soil plants and it is also suitable for mixing with soils."

This peat moss is not imported or shipped in. It is extracted by us from a deposit located on our own farm and so can be sold to you at a substantial saving. Write, call or wire for quotations by the pound, by the hundred pounds, by the ton or car lots.

The Specimen plants listed on page Six of this price list are truly "Specimen" plants. We especially recommend the Laurel Leaf and Pink Perfection.
